**Arnold Schwarzenegger**  
Governor

To: Interested Persons

From: Melinda Becker  
Acting Chief, Regional Programs  
California Regional Water Quality Control Board, Los Angeles Region

Date: October 27, 2004

Subject: Notice of Continuation of the Public Hearing for a proposed amendment to the *Water Quality Control Plan for the Los Angeles Region* to consider a revision to the Total Maximum Daily Load (TMDL) for Bacteria in the Malibu Creek Watershed

Due to the lack of a quorum for the November 4, 2004 board meeting, the California Regional Water Quality Control Board, Los Angeles Region (Regional Board) will continue the public hearing to consider the TMDL for bacteria in the Malibu creek watershed to a future board meeting date. The November 1, 2004 date for submittal of written comments and exhibits has not changed.

At the November 4, 2004 Board meeting, Regional Board staff will present an information item to update the Board on the status of the Malibu Creek and Lagoon Nutrient TMDL and to seek early input and direction from the Board and the public.

Please contact Rod Collins at (213) 576-6691 for additional information.
